

5.1.2 Capacity building and skills enhancement initiatives taken by the institution:

The College is dedicated to provide high-quality legal education with the goal of fostering students' overall growth. The college strives towards achieving the goal of holistic development of every student. In keeping with this goal, the college plans and conducts several activities for skill development and capacity building. These include programs for soft skills, language, advocacy, and communication, life skills, and raising awareness of the use of technology in the legal practice. Soft skills training programs are a strategic prerequisite that can drive students to excel and sustain success in their legal profession.
