

Kishinchand Chellaram Law College, GREEN CLUB
Awareness Program on Significance of Water Conservation
REPORT

Date: 13.09.2023

Time: 9:30 am – 10:30 am

Number of Participants: 48

On September 13, 2023, the Green Club organized a Awareness Program on "Significance of Water Conservation" engaging both SY as well as TYLLB students of KC Law College. The object of the program was to sensitise students on the issue of water scarcity. The event featured classroom presentations, piloted by Abuzar Khan (Student President of the Green Club), delivering a speech highlighting the critical issues of water scarcity and the lack of awareness about its value. The Green Club also displayed informative posters around the campus to remind students of environmental challenges and need for its protection. The program encouraged interactive discussions and a commitment to positive change in daily routines for environment friendly habits to be cultivated. Awareness was spread to a total of 48 students from SYLLB & TYLLB.
