

Kishinchand Chellaram Law College, GREEN CLUB

Awareness program About Ozone Layer Depletion

REPORT

Date: 16thSeptember' 2023

Location: Mumbai, Maharashtra

For celebrating Ozone day on 16thSeptember 2023, informative programs on "Ozone Layer Depletion" were held at various locations in Mumbai, targeting a diverse audience including students, faculty, and community members. These sessions were led by Green Club members of KC Law College, providing comprehensive insights into the causes, impact, and mitigation of ozone layer depletion. The program facilitated open discussions between Green Club members and the community, fostering collective responsibility for addressing this global challenge. Its primary objective was to inspire action by offering practical steps for ozone layer protection, such as reducing the use of harmful substances and supporting preservation policies. This awareness initiative effectively educated and motivated participants to combat ozone layer depletion, contributing to broader environmental protection efforts. We extend our gratitude to all involved and anticipate future initiatives addressing critical environmental issues. 4 students actively participated in this activity.
