

# Water Audit of Kishinchand Chellaram Law College campus

10<sup>th</sup> October, 2023

Water Audit of Kishinchand Chellaram Law College campus was conducted by Green club students of the College on 10<sup>th</sup> October, 2023. The object of the audit conducted was to evaluate the efficiency of water distribution, usage and water conservation practices in the College campus. The team covered all floors and water facilities within the college. On inspection it was found that all taps in basins and toilets were running fine with no leakages observed. The water distributing pipelines were in good condition without leakage. The waste water pipelines were also in good condition without leakage and well connected to the sewerage system. There is purified drinking water facility in the College for reducing use of bottled water. The audit team commended the College for its proper maintenance of water infrastructure and recommended maintaining the current practices of regular maintenance and monitoring to ensure the continued efficient operation of the water supply. The audit team consisted of 6 students of green club who understood the importance of proper maintenance of taps and pipelines.
